

The Word of God

... Oh, My sons, My sons, here I tell you this word. I have come to you, as I have always told you that I have come to you and you do not believe Me, that I am God and I came long time ago. At the beginning, when I came with this word, you heard it naming you My People. And I did not come to go into the world, but I want to stay with you, and **to end the century with you, as you are written to be the key with which I will end this final century. My People, you were not loved by anyone as I, God, love you.** Not even your parents, who raised you, did not love you as much as I, God, love you. My Love is deeper, much deeper than the one of your parents. My People, I have brought you precious things, great and worthy things. When will you have time to start working on them? Oh, oh, My people, make yourself time to fulfill My words, as making time from time you will have a pleasant life in God.

... My People, when God created you, He gave you a handful of wheat and when I came, I told you to separate it from weeds and I have come to you to see if you did what you were told to, but I see now that you want to miss it, and you do not want to separate it well, My People; as I gave you just a handful of wheat and you did not separate it, imagine what you would have done if I had given you a cartful! Your ancestors had cartfuls of wheat from Me, and they separated the wheat from the weeds well. They threw away the weeds. Why, My People, you do not separate the weeds? Who do you want to do this for you?

... **It is the time of the end** and no one will become worthy to do you good, for an ugly man has come and whispered at the year of the world of nowadays that the dead do no longer eat, that here is the heaven and hell, but I tell you not to believe and to stay with Me forever, as through you I will wash many sins.

... The wheat is your life and the weeds are the sin. The wheat are your days and every mortal's days. Man has only a handful of wheat today, and that handful is doubled with weeds, and there are a lot of weeds into the wheat, meaning that there are a lot of sins into the days of man. Your ancestors used to have hundreds of cartfuls of wheat and they did not allow the weeds to live with the wheat, they did not allow the sin to live in their hearts.

... I have come to you to prepare you for the Kingdom of Heaven, as the sin will no longer have place on earth, because heaven and earth belong to God and not to men.

God is against the man who sins. **The sinner cannot work for God.**

My People, your ancestors had made mistakes, too, but God used to send them prophets and they woke up, and they listened, they confessed and sinned no more. But there were not the prophets who came to you, but God Himself came to talk to you through the Holy Spirit.

You are not the people of the people, you are the People of God. You see? You have a cattle for pulling, and another one for milk, but I do not have you for pulling, as I took the yoke. So I do not have you for the world, I have you for Myself, to fulfill what I have written in law. My People, I want Myself to be proud of your life in front of the world like a teacher who is proud with his students' work. You Christian, your life is written in order to replace the sun, your life is the light, as the sun will not shine any more while you will be the light of the men on their path.

... My Son, do you hear My word? I speak to you closely, as I have never spoken so close to your ancestors. Neither did I to Moses, nor to Abraham or Isaac.

... Oh, brother, brother, God have invited you into His house. Not even the emperors had the honour that I, God, gave you. Heaven is waiting for you. There is no other creature on earth or in heaven who has the same honour that I, God, gave you.

... My Son, believe in God the One, as the water will perish from the earth and you will be the rock from which the water flows, the water everybody will drink from in order to know Me, God.

... My Son, do you believe that twenty-four bells will toll into this stable? Do you believe that the holy sacrifice will be prepared into this stable and the sacrifice will be in accordance with the belief of My people? My Son, do you believe that the creature¹ who must be shown will be shown into this stable? Do you believe that no one will be allowed to enter this place if they are unclean? My sons, make yourselves worthy of this holy sacrament, for I tell you that a part of you will enter, and a part will not, as I will not take you by name, Christian, but I will take by the life you live, as it is written in My law.

... I want to make the man to get rid of sorrow, meaning those men whom I gave for hard work. My sons, your ancestors enriched themselves through God's work, because, hearing the voice of God and fulfilling His words strongly, they became rich in everything. **My Son, through this work I forgive Pilate. My Christian brother, through this work I forgive Caiaphas, I forgive Herod, I will forgive the crowd of dead who died of sudden death, and I will give My hand to the thousands of aborted children, to help them come to light.**

... Truly I say to you My people, the century that will remain from the century is being built now. The one who came from the beginning of the century till now has not tasted yet the prepared things: they are all waiting the last one, they are waiting for you. This century will be over anyway, but come to Me, in the honour that I gave you, as I still have something to work with you. My sons, come to your senses, for it is here where the new man is being built, but no work will be done until the man will change according to the plan of God.
