

The Word of God

Do not fear or be afraid of the science of the today's world, for the today's knowledge of the world is like the man who dies without a candle. **All the prophecies of the Old and New Testament have been fulfilled, and the end is knocking at the door.**

... Lord Jesus is decided to lift you up from the earth while the world is being cleansed through sufferance; by many not only by one.

Do not forget My words, for many times I have heard when you said: "*I have forgotten Lord.*" It is an outrageous sin. Keep in mind these words for the devil stole them from you. Do not forget and do not lose any of the words, for with a single word you will ransom a great many souls, for no one of your fathers and forefathers were watered as you were.
