

The Word of God

... My loved people, you are to carry an axe instead of a cross; you will carry a hatchet instead of a cross; you will carry a sign on your head instead of a cross. (*The sign of the communism, r.n.*). **And you should know that he, who forsakes his cross, will die; he will die once for all. Woe to the man who will be deprived of this sign!**

... Someone said: „*I do not believe that my daughter will not succeed. I do not believe that my son will not succeed. They are very intelligent!*” It is not the science that lifts you to a degree, but only one single secret cross, and many have used great wealth for one single cross.

... Do not get weight on your body, but gain weight in your spirit instead, for over the fattened body all pains come, and the body which gained weight spiritually, overtakes all diseases. Who is healthy in spirit will break every stone which stands against him.

... The time is coming to take the sword but you need to know how to handle it. It is not the saber which the poor took to get the rich out of their houses, but the saber which will disinherit the antichrist.

... There is only doubt into My people: “*that one suffers and the other one doesn't*”. But I say: each one will have time to suffer and no one will escape from suffering, but listen to these words no matter what. **Neither Job nor Lazarus endured such a pain like My pot did, and no one had this suffering, for she is not loved into her own house.**
